For the attention of FRANCES ROONEY

We are pleased to state that the company named above are recognised by Sherwin- Williams (previously known as Leighs Paints), as a contractor with many years experience in the application of a wide range of fire protection products, including FIRETEX thin film / cellulosic intumescent paints

Sherwin Williams is a member of the Intumescent Coatings Forum (ICF) and the British Coatings Federation (BCF). We are also members of the ASFP & Firas. All of our thin film intumescent products are fully tested by Exova Warrington Fire to BS476 part 20/21 &/or EN13381 part 8 & assessed to ensure that they are fully compliant within our industry. To further underpin our quality standards all of our thin film intumescent paints are Third Party Certified under the Certifire scheme from Exova Warrington Fire and our design software (the FIRETEX Design Estimator) is also accredited under the Warrington Certifire Software Validation Certificate scheme.

Regards
